

Quality, Food Safety and Environmental Policy

KCG Corporation Public Company Limited

“KCG Corporation is committed to selecting high-quality products and continuously enhancing our manufacturing and service capabilities to achieve maximum customer satisfaction, ensure consumer safety in compliance with international standards, and operate in an environmentally responsible manner.”

To achieve this policy, the company has established quality, food safety, and environmental objectives that are appropriate and aligned with our operational context as follows:

Objectives:

1. To source and produce quality food products that meet international food safety standards and provide services that meet customer expectations in order to achieve the highest level of satisfaction.
2. To promote innovation and technological advancement to enhance the company's competitive capabilities.
3. To utilize resources efficiently while minimizing environmental impact.
4. To generate sustainable returns and benefits for all stakeholders, while ensuring employee well-being, job security, and quality of life.
5. To develop employee capabilities through continuous learning and growth, in parallel with the company's development.
6. To conduct business in accordance with the principles of Good Corporate Governance and in alignment with sustainable development practices.

This policy is hereby announced for acknowledgment and implementation across all levels of the organization, effective as of 20 May 2024.
